

real SDSW wedding

Stacy & Daniel

June 29 | ZLAC Rowing Club | Photography by She Wanders Photography

their story: This interior design and architect couple wanted their clean and modern taste to show through on their wedding day. The color combination of bright white and charcoal grey were pulled together with a splash of sunny yellow. Dan and his architect friends built the wooden canopy that they were married under and they also built their centerpiece from scratch. The night ended in a boom as guests enjoyed the fireworks show at Sea World across Mission Bay.
